

Melton Primary School is mobile!

Get notices, news and events sent straight to your smartphone

Add events to your calendar and set reminders

Be alerted to new or changed information

Dear Parents/Caregivers,

We have been very fortunate to be selected as one of fifty schools across Victoria to take part in the pilot scheme to trial a new smart phone application called Konnective.

Konnective is a mobile app solution that allows us to communicate with you, parents of our students, straight to your smartphone. We send news, events and more so that you can be even more connected with your children's activities and events at the school. Using Konnective, you can add events directly to your phone's calendar, set reminders for things you need to do and receive important alerts (similar to a text message) as soon as they are released.

Konnective is now also available direct to email. If you don't have a smart phone (iPhone, Android) or iPad, you will receive all of your child's applicable Konnective updates as an email. You will receive all up to date information quicker and easier than ever before.

We send you communication to specific grade levels via the App or email. You will receive information specific to your child's grade as well as general news, events and updates that will go to everyone. This extends and enhances our existing communications (eg. Face-to-face, Newsletter, website).

Once you have registered your email address at Melton PS, we will send you an email regarding finalising your App registration. You must then download the Konnective App so that you can begin to see the notifications. Alternatively you will begin seeing email updates straight away.

If you have any questions please leave a message with our school's office staff and one of our ICT staff will get back to you with further information.

We will also use your email address to update your details on Cases21.

Yours sincerely,
E Sutherland
 Emma Sutherland, Acting Principal
 Melton Primary School
