MAROON Spelling Mastery Rules

<p>Final 'e' When I add a morphograph to the end of a word do I keep the 'e' or drop it? If the next morphograph starts with a vowel you drop the 'e' as in replace + ing = replacing.</p>	<p>'Cvc' words For a word to be classified as a cvc word it has to be: short (4 or less letters) and the last three letters ends in consonant, vowel, consonant</p>	<p>Do I need to double a letter? If a word is a cvc word and the next morphograph begins with a vowel then a double letter is needed as in leg+ing= legging</p>	<p>Y to I rule When a word ends with a consonant and a y and the next morphograph begins with anything except an i, the y becomes an i as in pity + ful = pitiful and vary + ed = varied</p>	<p>Homonyms Some words sound the same but have a different meaning and are spelled differently, as in pair and pear and waist and waste</p>	<p>'Ous' endings Words that make a /us/ sound at the end are normally spelled with an 'ous' as in poisonous and nervous</p>	<p>Dropping the final y When a word ends in a consonant and a 'y' do we need to drop the y when we add another morphograph? If you hear the sound of the 'y' and the sound of the beginning letter of the next morphograph you keep the y as in worry+ing = worrying. If you don't hear both sounds, you drop the 'y' as in glory +ify = glorify</p>
<p>The e-x rule If the morphograph ex is followed by a morphograph that begins with s, then drop the s as in ex + spect = expect and Ex + sist = exist</p>	<p>Ageous endings When a word has the sound ageous in it the final e rule does not apply as in courageous and outrageous</p>	<p>Able or ible? Do we need the morphograph able or ible? Ible is used for non words as in aud + ible = audible. Able is used for words as in predict + able = predictable</p>	<p>FER rule If the morphograph fer is stressed, or said loudly when you say the word, the r doubles as in refer - referred Prefer - preferred If 'fer' is not stressed, the 'r' does not double as in offer - offered Suffer-suffered</p>	<p>-ITY rule When you add the morphograph -ity to the end of a word the pronunciation changes as in author + ity = authority and stupid + ity = stupidity</p>	<p>IZE rule When a word has the /ize/ sound at the end of the word it is usually spelled 'ize'. As spelling mastery is American it is important to note that in Australia we use the spelling 'ise' and either combination is acceptable.</p>
